

Proud of the company we keep

From our beginning in 1999, Foresight has enjoyed a collaborative relationship with various divisions of CBRE - a global leader in commercial real estate and property management. To support the client that has supported us all these years, Foresight again in 2015 was a sponsor of the CBRE Americas Summit - a gathering of industry insiders to promote business connections and provide insight for the various markets they represent, including Capital - Global - Industrial - Office - Retail.

October 28-30, 2015
Colorado Convention Center

“Connected Advantage”

The 2-day Americas Summit organized by CBRE, was held at the Colorado Convention Center in Denver this past October. Keynote addresses were given by Tom Brokaw - legendary NBC Newsman and Danny Meyer - the renowned restaurateur and entrepreneur. Attending for Foresight were **Wayne Korte, CEO** and **Chris Jones, COO**. Networking sessions and breakout conferences focused on industry technology and security.

One of the accounts that we provide support to CBRE’s Project Management Division is BB&T Banks, including this branch in Wilson NC.

To date this year for BB&T, Foresight has surveyed over 120 roofs and 75 parking lots in 11 states to assess conditions, provide repair recommendations, and develop long term budgets for capital expense planning.

Those surveys resulted in replacement and renovation designs and RFP packages on 65 roofs and 35 parking lots.

Valued clients can come in all shapes and sizes, from one to thousands of properties - give us a call if you need any assistance - we’d be glad to help with your roof, parking facility or exterior façade.
