

3/5/10

I am writing to express my appreciation for Foresight Services, Inc. As our roofing consultant for 12 years (and more recently our paving consultant) Foresight has assisted Rockwood School District with millions of dollars in roofing projects (and now paving projects).

Rockwood's 3,000,000 square feet of roofing is repeatedly surveyed by Foresight. They survey approximately 1,000,000 square feet per year on a rotating basis. These surveys then shape our capital roof replacement plans. (We replace about \$500,000 of roofing each year). These replacements are guided by Foresight's roofing experts who write the specs, provide the drawings, and coordinate with the architects and roofers to insure quality standards district-wide.

In a similar way Foresight is now assisting Rockwood with paving surveys, drawings, specs, and quality standards. (Again about 3,000,000 square feet of paved surfaces).

We trust Foresight to be our professional advisor on all our roofing and paving projects. They provide consistency, continuity, standardization, and quality in these critical capital improvements. They also advise us on preventative maintenance programs.

The Rockwood / Foresight team works very well together in preserving our investment in 3,000,000 square feet of roofing and 3,000,000 square feet of paving.

David Blickenstaff
Director of Facilities
Rockwood School District
