Highland, IL 62249

**\*Letter of Recognition\***

Dear Wayne,

During the holiday season, we all take time to reflect on friends and associates with whom we would like our journey to continue. Through the years, we've partnered on many unique opportunities, and recently, the "**Great Rivers Project**," which has a special meaning to Carlisle, being the first true building envelope project where Carlisle products are used throughout. We intend to give this project the recognition it deserves, acknowledging Carlisle's Building Envelope Initiative and the effort put forth by you and your design staff. Carlisle has been most fortunate in partnering with Foresight Services on this unique project.

In recognizing the value that our people bring in today's business environment, we wish to extend our gratitude and best wishes to the Foresight staff. We truly believe that the essence of a great organization is in its people. We look forward to continuing our prosperous and successful relationship.

From all of us to all of you, have a happy and joyous holiday!

Sincerely,

John Altmeyer  
President & CEO

Nick Shears  
Vice President Sales & Marketing
